COmmission REgistration System for the FCC

A new COmmission REgistration System (CORES) is now available, with enhanced security and functionality to make it easier to manage applications. The updated version of CORES allows you to register with a username (e-mail) and password to:

- Modify FRNs
- Associate FRNs to different user accounts
- View the financial history of FRNs

The FCC plans to retire the legacy CORES and encourages you to transition to the updated CORES to take advantage of its enhanced features.

For additional support, please visit the FCC Registration Help Pages. You can also call the FCC Licensing Hotline, (877) 480-3201 Option 4, or visit the e-support page.

About the FCC Registration Number (FRN)

An FRN is a 10-digit number that is assigned to a business or individual registering with the FCC. This unique FRN is used to identify the registrant's business dealings with the FCC. The FCC will use the FRN to determine if all of a registrant's fees have been paid. You are encouraged to register with the Commission as soon as you expect to do business with the FCC. This way, you will be ready to access any of the electronic licensing systems without having to go through the registration process at the time you submit an application.

For more information, see Public Notice DA 01-2452.
